1985-1996 Vortex Rammer Cold Air System

Gain up to 22 horsepower!

Replace your stock Air Box with a Vortex Rammer System and gain up to 22 horsepower. The system takes pressurized air from the radiator cavity, sends it through the radiator shroud into the specially designed scoop and forces it into the sealed box of the Rammer. Installation requires just a simple cut-out on the radiator shroud. Hardware and instructions included.

1999-2004 STS Turbo Remote Mounted Twin Turbo System

STS Turbo systems overcome the challenges of traditional turbo installations by mounting the turbos at the rear of the car. This allows you to retain stock exhaust manifolds, catalytic converters, and mid pipes. Stock intake and throttle body can also be retained if desired. Relocating the turbos to the rear helps avoid adding additional heat under your hood and you won't have to worry about clearance or interference issues with the belts, pulleys, or accessories in the engine bay. You'll also get better weight transfer since the turbos are in the rear and not adding additional weight to the front of your vehicle.These systems include an STS Turbo specific DiabloSport inTune i3 handheld along with higher rate fuel injectors.

STS direct fit remote mount turbo systems come complete with all the components needed for an OEM quality installation.

57470 99-00 Remote Mounted Twin Turbo System **$6995.99**
57471 01-04 Remote Mounted Twin Turbo System **$6995.99**

- Patented remote-vehicle design (U.S. Patent 6,745,568) offers a true bolt-on, twin turbo solution producing increased horsepower and torque across a very broad power curve.
- Remote-vehicle design eliminates increased under hood temps by having the turbos in back while also decluttering the engine bay so normal repairs and upgrades can be done without removing turbochargers and tubing.
- These turbo systems do not modify or affect factory emissions devices.
- Provides a unique performance sound since the turbos act as a muffler while turbo spool and rushing air from the blow-off valve make a distinctive sound that's sure to turn heads! No need for expensive headers, mufflers, or exhaust systems.
- No need for major vehicle modifications as each system is designed to attach to factory mounts.
- Mounted in place of the stock mufflers, our system is custom engineered to spool quickly, while eliminating all of the installation and excess heat issues of a front-mounted turbo system.
- The turbos utilize wasted energy leaving your tailpipe and many see 1-3 mpg increase in gas mileage compared to their original stock mpg numbers along with lower emissions.
- Systems include front mounted air-to-air intercooler and utilizes 304 stainless steel tubing for maximum strength and reduced weight.
- Approximately 500° F lower turbo temperatures eliminates the need for a turbo-timer, which requires the engine to run after the car is shut off in order to cool down the turbo and prevent oil and bearing damage.
- Turbos are exposed to ambient air rather than under-hood air which allows for better cooling of turbo components. Denser exhaust gasses drive the turbine wheel more efficiently.
- Offers better weight transfer and increases traction because majority of the system is mounted in rear rather than up front
- System includes everything for a complete installation: turbochargers, wastegate, blow off valve, intercooler, all tubing, hardware, along with detailed instructions.

With race inspired technology built into every system, you're looking at the very best the performance exhaust industry has to offer. American Racing Headers C5 Systems are available with 1-3/4", 1-7/8" or 2" primaries with catted or non-catted X-pipe mid-section. The 1-3/4" mid-sections have a 2-1/2" reduction at the flange to connect to stock system. Of course, these are manufactured using the highest quality 304 S/S available and require no modifications to install.

1997-2004 aFe Control Johnny O'Connell Suspension Package

Package Tuned by Legendary Corvette Racer, Johnny O'Connell. Bolt-On Shocks Keep the Car Planted & Remove Harsh Ride Characteristics. CNC-Bent 4130 Chromoly 35mm Front Bar and 29mm 3-Way Adjustable Rear Bar. Includes Polyurethane Bushings. Heavy Duty Rod End End links and CNC Machined Articulation Spacers. aFe Control is proud to introduce the Johnny O'Connell Stage 1 Package for the 1997-2004 C6 Corvette. Tuned by legendary 4 time Le Mans winner, Johnny O'Connell. This package features sway bars and shocks designed to provide your Corvette with racecar level road holding ability and the street-ability you would expect from your daily driver. The 4130 Chromoly tubular sway bars, include polyurethane bushings, heavy duty end links and come in Johnny O's signature yellow. The rear bar is 3 way adjustable, allowing for fine tuning the suspension. Perfectly matched to the Johnny O'Connell shock absorbers, the Johnny O'Connell stage 1 Package will make for a complete transformation in your C5 Corvette's performance, offering flatter, faster cornering and added car control. Perfectly balanced, aFe products will have your Corvette handling just as good at the track as it will around town. These shocks are a bolt-on solution for your Corvette and are tuned by Johnny O'Connell to the exact specifications needed for a perfect balance between performance and smooth ride. O.E. Style Fitment: All O.E. mounting points have been retained for durability and a hassle-free installation. Revised Damping Curve: The damping curve has been completely revised, removing the harsh, high speed ride characteristics associated with OEM dampers, while offering increased "platform" to keep the car planted in turns or transition inputs like slalom or road courses. Note: Some vehicles equipped with "Mag Ride" electronic shock absorbers will require an additional delete kit, part #52746.

1997-2004 aFe Control Pfadt Series Drag Racing Rear Sway Bars

4130 Chromoly 31.75mm 3-Way Adjustable Rear Bar. Ultra-Lightweight Anodized 7050-T7 Aluminum Arms. Includes 6061-T6 Aluminum Solid Pillow Block Rear Bushing Mounts and Solid Nylon Bushings. Lightweight 3/8" Rod End End links, Aluminum Turn Buckles and Articulation Spacers. Direct Fit Installation Requires No Modifications. aFe Control is proud to introduce the PFADT Series Drag Racing Rear Sway Bar for the 2005-13 C5 Corvettes. The PFADT Series Drag Racing Rear Sway Bar was designed for those that are looking for the ultimate drag race sway bar for their Corvette. The addition of a stiff rear sway bar reduces the independence of the rear suspension increasing traction of both rear tires. The PFADT Series Drag Racing Rear Sway Bar is the ultimate upgrade for improving launch performance. This 3-piece sway bar utilizes a 4130 Chromoly torsion bar with splined ends and a clear zinc finish for corrosion resistance and durability. The kit features ultra-lightweight 7050-T7 aluminum arms that are anodized orange and feature broached splines with laser etched adjustment markers giving you 3 different sway bar rate combinations. The adjustable end links are designed to be lightweight and strong while allowing maximum articulation. The use of a turnbuckle allows precise corner balancing without having to disconnect the end link from the car. Included in the kit are solid 6061-T6 pillow block bushing mounts and Moly (Molybdenum) impregnated nylon bushings. The kit comes complete with all necessary hardware & centering rings. The PFADT Series Drag Racing Rear Sway Bar was designed to be the perfect addition to Corvette race cars and is not intended to be driven on the street, or public roads.

LCD Display Mirrors

#57072 — This rear view mirror provides the driver with a view from the installed backup camera with its crystal clear 4.3 embedded LCD screen. When you put your vehicle into reverse, the display will automatically turn on. When not in reverse, the screen completely disappears letting you utilize the mirror portion.

#57074 — You probably haven't seen an LCD Display Mirror like this before. This mirror is capable of displaying either a single camera feed on its bright 7.3" LCD screen, or dual camera views in split screen mode on two 3.6" side-by-side screens. Either way, you get a new super-large image capability not seen in a rear view mirror before, or the versatility of two display screens side-by-side. Featuring 3 camera inputs, this mirror allows you to connect not just a reverse-triggered back up camera, but two additional video inputs as well. You can manually activate the additional cameras with the flip of a switch (not included) or by using one of our innovative Curb Alert Park View PRO sensor systems.

* NOTE: 1994-1996 Sport Seat Covers

For best results, it is highly recommended that customers send us their seat frame backs when ordering 1994-1996 Sport Seat Covers. Price includes installation of backs on seat frames. Frames should be sent in advance. *Call for details.*

All CA 1994-1996 Sport Seat Covers are now sold only with new seat foam. Due to the procedure the manufacturer used to attach original seat covers to the foam, it is extremely difficult to remove original covers without severely damaging the original seat foam, resulting in a poor installation of new seat covers. As an added service, and to prevent this problem, we now sell these seat covers only with the foam. In addition, the seat covers will be attached to the new foam by professional installers in the same manner as the factory originals.

#28575 *1984-1985 Black Refurbished Steering Wheel*

1984-1989 Refurbished Original Steering Wheels

Unlike wheels which are simply rewrapped, we take original, structurally-sound steering wheels and carefully replace the original padding and leather, including the center section. Top quality leather and padding combined with special recovering technique results in a steering wheel that just might be better than when it came from the factory!

Note: Requires exchange of an original, rebuildable steering wheel. If an original is not available at time of purchase, a core charge of $25 will be added to the price of the new Steering Wheel. This charge is completely refundable upon receipt of an acceptable core.

1985-1996 Throttle Body Airfoil

Gain 12 Horsepower in 5 minutes!

Increases air flow by reducing power-zapping turbulence. For tuned port injection engines, the Air Charger straightens air flow as it enters the intake plenum, smoothing turbulent air and streamlining it for increased flow. The net result is additional power, better throttle response and faster acceleration. Installs easily without modifications. Attaches to throttle body with one screw, included.

Power Slot Rotors

Power Slot Rotors utilize the revolutionary Vac-U-Slot system to evacuate the hot gases that build up between your rotors and pads while maintaining 96% of the active braking area. Because they're not drilled, they stand up to stress and maintain their integrity much longer than most cross-drilled rotors.

Rebuilt Instrument Panel with Cruise

1984-1989 REBUILT INSTRUMENT PANELS

A small bump in the road, a big headache when your instrument cluster goes dead or dark with the high-beam and turn-signal indicators on. If you can identify with this, you probably have a defective instrument cluster.

Other symptoms include a random display of a few segments only, which may or may not be accompanied by a burned-out "LCD" fuse. Frequently, a defective instrument cluster will drain a car's battery in a day or two.

Fortunately, 1984-89 Instrument Panel Repair saves you all the aggravation. Simply send us your defective panel and we'll have it restored to like-new condition. Or pay the refundable core charge and we'll ship you a refurbished instrument panel right away so you can keep on driving until you're ready to install your new panel.

Accel Ignition Coils, Distributor Components, Spark Plugs and Spark Plug Wires are designed to make your Corvette's ignition perform reliably and efficiently. Accel's innovations in ignition wire and distributor technology have earned the trust of auto and performance enthusiasts everywhere. Accel delivers a better spark and more MPG's. Get started with Accel.

1995-1996 Opti-Spark Distributor

The ACCEL Performance Replacement GM Opti-Spark II distributor replaces the weak link in your LT1 ignition system. It feature an all-new construction with heavy-duty Oil-lite bushings and polished aluminum housings. The ACCEL Performance Replacement GM Opti-Spark II distributors include a high dielectric strength reinforced cap with brass contacts and a balanced rotor. Also included are new pin drive shaft seals, hardware, and easy-to-follow instructions.

Accel Super Coil Ignition Coil

1984-1995 Accel HEI Super Coils

Accel Super Coils deliver 10% to 15% more energy than OEM coils by utilizing advanced bobbin technology, specialized silicone magnetic steel cores and optimized winding. High-temp epoxy resists shock and vibration while increasing conductivity. Direct plug-in replacements for OEM coils.

HEI coils are compatible with both original and computer-controlled HEI Ignition Systems.

Add flexibility to your fiberglass with ACI's E-Zee Fit components. By using special resins during the curing process, ACI has created parts that are more flexible than original, and most replacement, fiberglass. You'll find them easier to install and they have better resistance to minor bumps. Look for "E-Zee Fit" on available items in this section.

1984-1996 Hood / Distributor Seal Pad Sets

The factory started using these hood seal pads on the 1993 ZR-1 and it turned out to be a great improvement. This improvement is now available for your 1984-1996 Corvette. The pad set helps prevent hood vibration and keeps the paint on the rear of your hood from rubbing against the firewall. This easy-to-install set can be attached quickly with self-adhesive backing (included).

#40590 *1985-1987 Sway Bar Kit. Front 32MM 1 1/4 Inch Hollow Bar*

1985-1996 Front Sway Bar Kits

The fastest and easiest way to refine handling and get rid of body roll in your 1985-96 Corvette is to bolt on an anti-sway bar system. These anti-sway bars link the left and right sides of your Corvette together. This transfers energy to the opposite side of the vehicle during hard cornering and resists body roll. The end result is much better handling while turning. Kits are easy to install and include grade-8 hardware, polyurethane bushings and instructions.

1988-1996 Neoprene Fender Seals

Install these seals and keep your engine compartment clean and dry. They mount over the shock towers using factory and supplied fasteners. Installation of the die-cut, non-tearing, neoprene seals takes just minutes. Neoprene construction makes these seals stronger and more durable than other similar available products.

41883 88-96 Fender Seals - pr **$42.99**

1988-1996 Sport Suspension Systems

A Sport Suspension System with Composite Monosprings will set up your C4 Corvette for tighter, more responsive handling without compromising the ride. The Sport Suspension reduces body roll and maintains optimum tire geometry for better traction and wear.

Note: Sport Suspension Systems contain oversized packages and require additional freight charges. Please ask your Sales Rep for details.

Sport Suspension Systems include:

- Front Sport Spring Kit
- Bilstein Sport® Gas Shocks
- Rear Sport Spring Kit
- 32mm Front Anti-Sway Bar Kit
- Lowering Wedge Kit
- 360 lb. Composite Monospring
- Adjustable Smart Struts®
- Front & Rear Poly Conversion Kits

40583 89-96 Suspension System - Sport **$2389.99**

Composite Monospring

The composite monospring is the ultimate replacement for the aging multi-leaf steel spring. It is designed to ride better, react faster, and last longer than conventional multi-leaf steel springs. It is composed of unidirectional fibers that are bonded together with a special epoxy matrix. By nature, this fiberglass is more elastic than steel and will not fatigue the way a multi-leaf steel spring eventually must. Because it does not contain layers of steel like a standard multi-leaf spring, there is no friction between each leaf to slow reaction to changing road surfaces.

#40597 *1984-1996 Smart Strut Kit with Polyurethane Bushings*

Poly Smart Strut® Kits

Polyurethane Smart Struts® eliminate unwanted change in rear wheel camber. At 2 1/2" of wheel travel, the 84-96 Corvette rear camber setting changes over 2°. The same car equipped with Smart Struts® has measured camber change of less than one-tenth of a degree at over 5 1/2" of wheel travel. Now that's proven results! Smart Struts® are guaranteed to improve handling and reduce uneven tire wear. They also reduce hub bearing wear by reducing side loading. Limited lifetime warranty.

Poly Smart Strut® Kits include:

- Custom Strut Rod Mounting Bracket
- Camber Adjustment Cams
- Polyurethane Rod End Bushings
- All Hardware & Instructions

1984-1996 Rebuilt Rear Differentials

These Automatic and Manual Differentials are rebuilt with new bearings, seals, carriers and gear sets.

Please Note: Each unit requires an exchange of a POSI-TRACTION unit in good, rebuildable, non-damaged condition. All core charges must be paid at time of purchase & will be refunded when the exchange unit is received, examined & determined to be rebuildable. Returned core must be the same ratio as the differential purchased to qualify for full refund.

Attention 1986 Corvette Owners:

Early 1986 tops have a cone shaped alignment pin located out-board of a threaded mounting hole. The center-to-center distance between the alignment pin and the threaded hole is 2". Late 1986 tops don't have the alignment pin. Instead, a metal bracket with a threaded mounting hole is used. The bracket is held in place by two torx head bolts. Distance between bolts is 2 1/4".

1984-1996 Coupe Rear Window Weatherstrip

The coupe Rear Window Weatherstrip was originally designed by GM in two pieces that were bonded together in the corners. Over time this design has often led to air and water leaks as the bonds break and the weatherstrip separates into two pieces.

We offer two designs of the Coupe Rear Window Weatherstrip. The original design is offered in Import Weatherstrip line under part **#X2172** and includes upgraded adhesive in order to maintain the corner bond longer.

Also available is an upgraded version in the USA made weatherstrip line under part **#52335**. This improved product was designed, engineered, and manufactured right here in the USA. This design eliminates the bonded corners by using a one piece molded corner. This design is more durable and will last longer than the original design Coupe Rear Window Weatherstrip.

Wheel and Tire Packages

Buying a wheel and tire package brings the convenience of the tire shop directly to your door. These kits come complete with four wheels, tires, and necessary hardware to go from your door-step to installed without ever leaving your driveway - all you need is a jack and lug wrench. You save time and money with mounted wheel and tire packages as labor to mount and balance is included in the kit price. All wheels are checked for trueness prior to mounting and the tires carry the full manufacturer warranty.

1997-2004 Sport & Standard Seat Foam

All pieces for both styles accurately reproduced by CA! This foam can be purchased by the piece or in complete sets, 4-piece for Standard and 6-piece for Sport. For both styles, the back bolster pockets are mesh reinforced to help prevent tear out, a common problem on the original foam. Correct size, shape and foam density. Correct hook fasteners are embedded in the foam, not glued on the surface. Molded in trim lines on the bottom pieces to aid in trimming for power seat controls.

1997- 2004 Power Slot Rotors

Power Slot Rotors utilize the revolutionary Vac-U-Slot system to evacuate the hot gases that build up between your rotors and pads while maintaining 96% of the active braking area. And, since they're not drilled, they stand up to stress and maintain their integrity much longer than most cross-drilled rotors. *For Cooler Brakes & Quicker Stops!*

1997-2004 Direct Fit Aluminum Radiators

These Direct Fit Aluminum Radiators feature a double row of extra wide, high-quality tubes, special louvered fins and press formed end tanks. Cores are furnace brazed for the ultimate in tube to header welds without the use of any epoxy. Each radiator is then fit to the original core supports and factory hoses. That's right, no cutting, bending or installing different hoses to make it work. Best of all, they cost much less than other Aluminum Radiators that do require modification to use. Backed by a 3-year Manufacturer's Warranty.

1997-2004 Quad Cruiser Performance Exhaust

» Manufacturer's Million Mile Lifetime Warranty
» Slightly louder than stock
» Polished T-304 Stainless Steel Construction
» 3.5" Twin Wall Round Angle Cut Polished Tips

T-304 Stainless Steel constructed 2.5" pipes reduce backpressure, but still allow for quiet cruising with no drone. Refined, powerful sound with a more aggressive tone under heavy acceleration. Comes complete with stainless steel clamps and everything you need for a fast, easy installation. For even more performance, pair this upgrade with the 97-04 Crossover Pipe below.

51516 97-04 Quad Cruiser Performance Exhaust **$1019.99**

1997-2004 X-Style Crossover Pipe

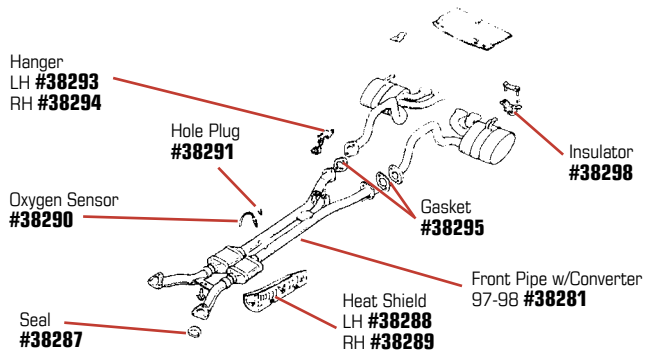

Get even more performance from your exhaust upgrade by adding this X-Style Crossover Pipe. This precision component balances exhaust pulses, therefore aiding in the ridding of waste gas from the cylinders. This scavenging effect allows for better air/fuel flow on intake, thus providing enhanced power delivery, as well as a smoother exhaust note. Installation of this component will require the cutting of stock pipe.

1997-2004 LED Taillight Kit and Accessories

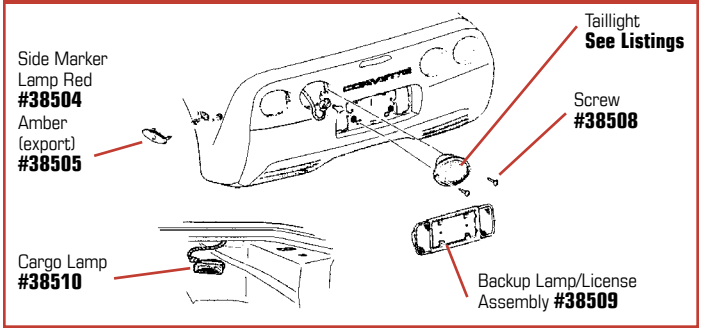

Highlight one of your Corvette's most attractive features with modern LED technology. These LED Taillight Kits replace normal bulbs and lenses with a sophisticated pattern of red LED lights. When braking, they shine with a distinctive pattern that draws attention. They're every bit as reliable and safe as conventional bulbs - in fact, they actually light faster! Installs in under 2 hours. They connect to your existing sockets without having to cut a single wire. Each kit includes 4 taillights. **Note:** If you experience hyperflash with your LED Taillights, you will need Part #41442.

Wheel and Tire Packages

Buying a wheel and tire package brings the convenience of the tire shop directly to your door. These kits come complete with four wheels, tires, and necessary hardware to go from your door-step to installed without ever leaving your driveway - all you need is a jack and lug wrench. You save time and money with mounted wheel and tire packages as labor to mount and balance is included in the kit price. All wheels are checked for trueness prior to mounting and the tires carry the full manufacturer warranty.

ASTORIA High Gloss Gunmetal

EAGLE Gloss Black with Mirror Cut Lip

Astoria Wheels by Cray

The all original Astoria aftermarket alloy wheel is made exclusively to fit Corvettes. A motorsport inspired pattern formed of multiple spokes are dissected into five sections to give the Astoria an explosion of distinctive taste and personality. With no other wheel like it on the market the Astoria brings a fresh look to the table while maintaining a classic feel much like the reinvention of the Corvette in the C7 series. Constructed from advanced rotary forged technology, the Astoria is made for lightweight rotational mass & sturdy structural integerity. The Astoria rotary forged wheel is manufactured using a highly advanced production technique called rotary forging. The rim of the wheel is forged at high pressure while the wheel is spun at high speed. This alters the molecular structure and enhances the strength of the alloy. The benefit is a much lighter weight than a regular cast wheel. Most importantly, the weight savings is in the outer rim of the wheel which dramatically reduces rotational mass and enhances vehicle performance. Wheel bolt pattern: 5-120.65.

Eagle Wheels by Cray

A classic deep dish mesh wheel design has always looked incredible on a Corvette. However, there has yet to be an available deep lip design available for the C7. The Cray Eagle aftermarket alloy rim revitalizes the deep lip mesh look for the 21st century fitting all generations of Corvette including C4, C5, C6 Grand Sport, C6 Z06, C7 Stingray & Z51. Sizes for Eagle range from 18x9 up to 20x12.5 with lip sizes ranging from 1.5" to 2.6" depending on front or rear sizes. Wheel bolt pattern: 5-120.65.

MAKO Silver with Mirror Cut

MANTA Chrome

Mako Wheels by Cray

The Mako Shark is the fastest of its species and is most notably recognized by its sharp snout much like its vehicular counterpart in the Corvette series. Suitably named, the Cray Mako aftermarket alloy wheel features a daggering multispoke design latching onto one of the fastest road vehicles. Taking a bite into the details are deadly sharp chamfers along the inner lip shaving off unnecessary weight and adding aesthetic refinement. Mako is made from advanced rotary forged technology creating a lighter weight wheel for reduced rotational mass. The Mako rotary forged wheel is manufactured using a highly advanced production technique called rotary forging. The rim of the wheel is forged at high pressure while the wheel is spun at high speed. This alters the molecular structure and enhances the strength of the alloy. The benefit is a much lighter weight than a regular cast wheel. Most importantly, the weight savings is in the outer rim of the wheel which dramatically reduces rotational mass and enhances vehicle performance. Wheel bolt pattern: 5-120.65.

Spider Wheels by Cray

A black widow may have eight legs, but Cray's new Spider Corvette wheels have ten, eerily articulated from the deeply recessed hub to the very edge of the lip. Rather than hide the formidable Corvette brake rotor and caliper assembly, this open, "see through" design frames it. It is a design made possible by our highly advanced manufacturing technology known as rotary forging. Rotary forging is a process that significantly strengthens the aluminum alloy, permitting Spider's graceful, arachnid spokes. Rotary forging also produces a markedly lighter wheel than conventional processes and weight is always the enemy of performance. Eighteen to 20 inch variations of Cray Spider Corvette rims ensure compatibility with C4, C5, C6 Grand Sport, Z06, C7 Stingray & Z51 'Vettes. Argue with yourself over the Matte Black Finish, Silver with a Mirror Cut Face or Gloss Black with a Mirror Cut Face. The rim of the wheel is forged at high pressure while the wheel is spun at high speed. This alters the molecular structure and enhances the strength of the alloy. The benefit is a much lighter weight than a regular cast wheel. Most importantly, the weight savings is in the outer rim of the wheel which dramatically reduces rotational mass and enhances vehicle performance. Wheel bolt pattern: 5-120.65.

POLICIES

Terms and Conditions: Goods and/or services sold by our company, hereinafter referred to as "Seller", to customer, hereinafter referred to as "Buyer", are expressly subject to these terms and conditions set forth below. Any proposal for different or additional terms and conditions contained in any prior oral or written communication, including, without limitation, are hereby objected to and rejected, but such proposal shall not operate as a rejection of this agreement unless such variances are in the terms of the description, quantity, price or delivery schedule of the goods and/or services but shall be deemed a material alteration thereof, and this agreement shall be deemed accepted by Buyer without said additional or different terms. Buyer's acceptance of shipment or performance and/or payment for the goods or services constitutes acceptance of Seller's terms and conditions. The Seller may, from time to time, change or supplement these terms and conditions.

Payment: We Accept Credit & Debit Cards, Checks and Money Orders. Payment must be received in full prior to shipment.

Prices Subject to Change: All prices and/or discounts are subject to change without prior notice. All prices quoted by Seller will be in effect for a period of thirty (30) days from the date of the written quotation unless otherwise stated. While every effort is made to ensure accuracy, Seller is not responsible for errors or omissions or unforeseen price adjustments in distributed catalogs or our website. Note: Some non-discount, limited discount or pre-discounted items may be excluded from certain promotional pricing and cannot be combined with other offers.

Limited Warranty: Seller makes every effort to list the warranty for each product on the product webpage. Unless otherwise specified, all products are warranted to be free of defects in workmanship and materials under normal use for a period of 30 days from the invoice date.

Limitation of Liability: Seller's liability on any claim for loss or damage arising out of this contract or from the performance or breach thereof or connected with any goods or services supplied hereunder, or the sale, resale, operation or use of goods, whether based on contract, warranty, tort (including negligence) or other grounds shall not exceed the price allocable to such goods or services or part hereof involved in the claim regardless of cause or fault. Seller shall not under any circumstances be liable for any labor charges without its prior written consent. In no event shall Seller be liable for any incidental or consequential damage, including but not limited to, loss of profits or revenue, loss of use of products or associated product, cost of capital, cost of substitute products, facilities or services, downtime costs, or claims of customers of Buyer for such damage.

Shipping Damage, Lost or Missing Merchandise: Unless otherwise noted, all sales of goods are made F.O.B. point of shipment and, in all cases, title and risk of loss or damage shall pass upon Buyer with delivery to the carrier at point of shipment. Seller reserves the right of carrier selection. Delivery dates given in advance of actual shipment of goods or performance of services are estimates and shall not be deemed to represent fixed or guaranteed delivery dates. Buyer is required to examine all shipments upon arrival to ascertain condition. If any shortages or damages occurred in transit, please contact Seller within 5 days of receipt for instructions on how to proceed. Failing to do this could jeopardize the refund or replacement of the damaged or missing items. Please save the original box and packaging materials for inspection by the carrier. Damage/loss claims cannot be filed after 15 days from the date of receipt of the package. Items shipped via truck must be opened and inspected while the driver is still on the premises, and damage noted if there is any.

Refused Shipments: If a shipment is refused, customer will be charged for shipping and handling plus a restocking charge of 15% of the product value.

Returns: You may return products other than Special Orders, if returned in unused, original condition in original packaging. There is no need to call for authorization. Complete the Return Form enclosed with your shipment and send the package back to us. It is recommended that you insure the package and retain your receipt of shipment. No COD returns will be accepted. Qualified returns will be refunded in the same method they were paid (i.e. credit card refund or refund check). There will be a full refund on returns up to 30 days from invoice date. Qualified returns older than 30 days but less than 90 days, will be assessed a 25% restocking fee. Special orders, custom products, electrical products, tools, books, videos, CD's/DVD's, exhaust products after installation, returns of partial sets/kits or returns more than 90 days old will not be accepted. Any unauthorized returns will be mailed back to customer at customer's expense.

Core Return Policy: Our rebuilders are not able to accept core returns on items once they have been modified in any manner. In order to receive full core credit, core returned must be from a vehicle that is the same year, application and options as the item ordered. Core must be complete, in rebuildable condition and drained of all fluids to receive full credit. Cores are to be shipped to Seller pre-paid by the customer. Core verification takes approximately 3-4 weeks. If you have any questions, please contact our Customer Service Department prior to returning.

Force Majeure: Seller shall not be liable for failure to deliver or for delay in delivery or performance due to (i) a cause beyond its reasonable control, (ii) an act of God, act or omission of Buyer, act of civil or military authority, governmental priority or other allocation or control, fire strike or other labor difficulty, riot or other civil disturbance, insolvency or other inability to perform by the manufacturer, delay in transportation, or (iii) any other commercial impracticability. If such a delay occurs, delivery or performance

shall be extended for a period equal to the time lost by reason of delay.

Indemnification: Buyer hereby (1) waives, releases and discharges any and all claims with the exception of claims for breach of this sales contract of every kind, including, but not limited, to injury or death of any person or damage to property, which it may have at any time against Seller, its agents or employees, by reason of or arising out of any condition of or defect in the goods and (2) covenants to indemnify and hold harmless Seller, its agents and employees from and against any and all loss, damage, expense, claims, suits, costs of defense, including attorney's fees which Seller or any or its agents or employees may sustain or incur at any time for or by reason of any injury to or death of any person or persons or damage to any property arising out of any condition of or defect in the goods or any claimed inadequate or insufficient safeguards of safety devices or warnings.

Governing Law: This Agreement shall be governed by and construed according to the laws of the State of Pennsylvania.

Entire Agreement: This Agreement sets forth the entire agreement and understanding of the parties relating to the subject matter herein and supersedes any prior discussions or agreements between them. No modification of or amendment to this Agreement, nor any waiver of any rights under this Agreement, shall be effective unless in writing, duly executed by both parties.

Severability: If any provision of this Agreement is held to be invalid by a court of competent jurisdiction, then the remaining provisions shall nevertheless remain in full force and effect.

Assignment: Buyer shall not assign or delegate any or all of its duties or rights hereunder without Seller's prior written consent. Any assignment or delegation made without Seller's consent shall be null and void.

Headings: Headings used in this Agreement are provided for convenience only and shall not be used to construe meaning or intent.

About California Proposition 65

California's Proposition 65 entitles California consumers to special warnings for products that contain chemicals known to the state of California to cause cancer and birth defects or other reproductive harm if those products expose consumers to such chemicals above certain threshold levels. We care about our customers' safety and hope that the information below helps with your buying decisions.

We are providing the following warning for products linked to this page:

WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

Motor Vehicles

California requires the following notice:
WARNING: Motor vehicles contain fuel, oils and fluids, battery posts, terminals and related accessories which contain lead and lead compounds and other chemicals known to the State of California to cause cancer, birth defects and other reproductive harm. These chemicals are found in vehicles, vehicle parts and accessories, both new and as replacements. When being serviced, these vehicles generate used oil, waste fluids, grease, fumes and particulates, all known to the State of California to cause cancer, birth defects, and reproductive harm.

Tools

California requires the following notice:
WARNING: Some dust and particles created by power and hand tools from cutting, sanding, sawing, grinding, drilling and other activities contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

Your risk from exposure to these chemicals varies, depending on how often you do this type of work. To reduce your exposure, work in a well-ventilated area and with approved safety equipment, such as dust masks that are specially designed to filter out microscopic particles.
