C5 SKID PLATE STIFFENERS

Don't count on stock skid plates to take the ouch completely out of parking curb scrapes... they're just not sturdy enough to stand up to the task. **And, once bent, factory plates could cost hundreds to replace.** Our stiffeners can save the day by bolting on over your existing plates and preventing damage in the first place. They install in less than 15 minutes. No drilling required. All hardware included.

1997-2004 DIRECT FIT ALUMINUM RADIATORS

Our Direct Fit Aluminum Radiators feature a double row of extra wide, high-quality tubes, special louvered fins and press formed end tanks. Cores are furnace brazed for the ultimate in tube to header welds without the use of any epoxy.

#44290

Each radiator is then fit to the original core supports and factory hoses. That's right, no cutting, bending or installing different hoses to make it work. Best of all, they cost much less than other Aluminum Radiators that do require modification to use. Backed by a 3-year Manufacturer's Warranty.

44290 97-04 Radiator - Direct Fit Automatic**\$629⁹⁹**

43581 97-04 Black Ice Coating.....**\$60⁰⁰**

Add **43581** to have your radiator coated with Black Ice. This special epoxy will adhere to the natural aluminum and never peel or flake. It is only 3-5 mils thick and it will NOT affect the radiator's ability to dissipate heat. The semi-gloss finish resembles the older enamels used on copper/brass radiators and it will give your engine compartment an OEM look.

X-STYLE CROSSOVER PIPE

Get even more performance from your exhaust upgrade by adding this X-Style Crossover Pipe. This precision component balances exhaust pulses, therefore aiding in the ridding of waste gas from the cylinders. This scavenging effect allows for better air/fuel flow on intake, thus providing enhanced power delivery, as well as a smoother exhaust note. Installation of this component will require the cutting of stock pipe.

CORSA X-STYLE CROSSOVER EXHAUST PIPE

From CORSA™ Performance, manufacturer of some of the bestselling Corvette exhaust systems around, comes the ultimate crossover pipe for your C5! Based on sound engineering principles, this design provides improved, balanced side-to-side exhaust flow for increased power. Virtually eliminates the exhaust Idle burble and popping on deceleration found in most fifth generation Corvettes. **CORSA's X-style Crossover Pipe improves exhaust flow, at the same time smoothing out the LS1 engine pulses for better throttle response and a cleaner sound.** Made of 16 gauge 304 stainless steel with mandrel bends, this 2 1/2" pipe bolts on after your catalytic converter and mounts to the muffler over-the-axle pipe flanges of your Corvette. Comes complete with installation instructions and all necessary hardware. No welding required, just basic hand tools (a chain-style pipe cutter is recommended for easy installation). **Made in the U.S.A. Guaranteed by CORSA™ for as long as you own your C5.**

Tiger Shark Tips

There is a major difference between CORSA's RSC™ technology system, and all the rest... no other system can match CORSA's awesome sound at full-throttle and whisper-quiet cruise. CORSA's patented RSC™ technology makes it possible. Reflective Sound Cancellation (RSC) enhances the throaty LS1 exhaust note, eliminates drone and resonance and provides 45% more flow than stock. Systems are available in two models – **The Touring Edition** provides a crisp exotic sound while **The Pace Car Edition** features a bolder, more aggressive muscle car tone at full throttle. Both systems come with a polished satin high temperature finish and **your choice of three styles of tips - Tiger Shark, GTR or Pro-Series**. Made in the U.S.A. Guaranteed by the manufacturer against rust-through and corrosion for as long as you own your C5 Corvette. Corsa Tiger Shark tips are evenly spaced and designed to fill the rear fascia exhaust outlet or cove area to give a new and balanced look to your C5. All designs are welded in place for perfect alignment. **Constructed of 100% stainless steel**, they go through an extensive eight-step polishing process to ensure long lasting durability and good looks.
