1953-1962 PARKING BRAKE

1953-62 DUAL MASTER CYLINDER CONVERSION KIT

Convert to a dual master cylinder configuration without altering your Corvette's firewall or hood for clearance. Mounting bracket attaches to stock location on firewall. Kit comes with new master cylinder, mounting bracket, adjustable pushrod and hardware.

42544 53-62 Single-to-Dual Master Cylinder Conversion Kit.... **\$299⁹⁹**

FRONT DISC BRAKE CONVERSION KIT

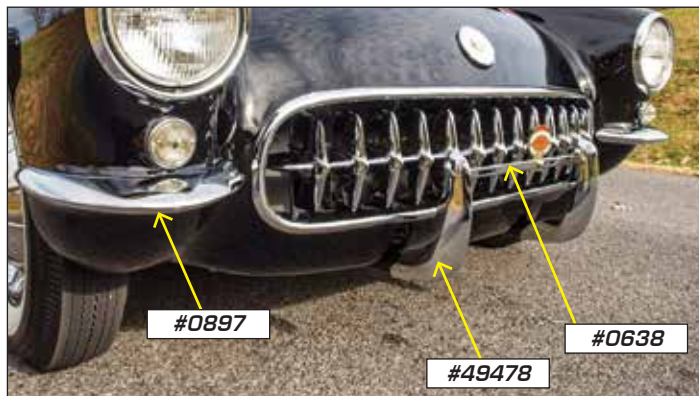

This kit bolts on easily with stock spindles and features a special adapter that mounts a manual, dual master cylinder without modifying your firewall or hood. Kit includes: Caliper Brackets, New GM Calipers w/ Pads, Bearings, Seals & Dust Covers, Rotors, Brake Hoses, New Dual Master Cylinder, Pushrod & Proportioning Valve.

NOTE: Kit fits 1953-62 Corvette spindles but dual master cylinder will not fit 1953-55 with original engine or 1956-62 with stock fuel injection.

1960-1962 REPRODUCTION RADIATORS

Stacked Aluminum Design. Original Look. Better Performance.

Reproduced to exact specifications with the stacked aluminum design, these Aluminum Radiators maintain the look of original equipment but perform better – guaranteed to run at least 20 degrees cooler than any aftermarket copper/brass replacement. Backed by a 5-year manufacturer's warranty. Specify build date or VIN # when ordering.

1955-1962 DIRECT-FIT ALUMINUM RADIATORS

Our Direct Fit Aluminum Radiators fit the factory hoses and original supports – no cutting, bending or installing different hoses. Each core features a double row of wide, high-quality tubes, louvered fins and press-formed end tanks. Cores are furnace brazed for the ultimate tube-to-header welds without epoxy. Best of all, they cost much less than other Aluminum Radiators. Three-year Manufacturer's Warranty. Standard Direct-Fit Radiators feature 1" tubes, while High Performance (HP) Direct-Fit Radiators feature 1.25" tubes.

- 43581** 55-62 Black Ice Coating **\$60⁰⁰**

Add **43581** to have your radiator coated with **Black Ice**. This special epoxy will adhere to the natural aluminum and never peel or flake. It is only 3-5 mils thick and it will NOT affect the radiator's ability to dissipate heat. The semi-gloss finish resembles the older enamels used on copper/brass radiators and it will give your engine compartment an OEM look.

CORVETTE FENDER GRIPPERS

Protect your paint when you're under the hood. You'll be able to work in style knowing that your exterior is protected from those annoying scratches that might otherwise ruin your work of art. Made from a non-slip material. You can rest assured that your tools will not slip off the fender gripper. Remember, Fender Gripper is completely washable and impervious to motor oil, so clean up is a snap!

EXHAUST PIPES & MUFFLERS

Corvette America's Complete Exhaust Systems give you convenience and flexibility with everything you need (pipes, mufflers, flanges, sleeves, donuts and clamps as required), or just the pipes and mufflers you want. Manufactured of aluminized steel to OEM specifications with the correct fit, look and sound. Round mufflers were used on high-performance engines, ovals on low horsepower ones. Glass Pack mufflers are an economical alternative. All come with welded header pipes as original.

1959-1962 STEERING WHEELS

Our Steering Wheels are precise replicas of competition-type wheels with a plastic, leather-grain rim. As noted in the NCRS Judging Manual, they show flashing on the mold seam around outer circumference and the stainless steel spokes have circumferential finishing marks on top side and radial direction marks on bottom.

15" 3-SPOKE STEERING WHEELS

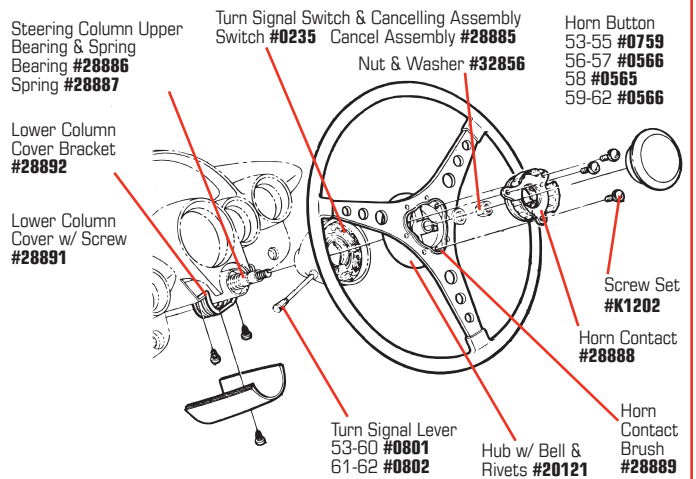

If your goal is to update a C1 Corvette interior without destroying its character and personality, then you'll want to take a close look at these direct replacement steering wheels. These smaller diameter wheels fit the OEM column and feature a thicker more comfortable grip. Solid stainless steel frame. Uses factory hub and horn button.

WHITEWALL RADIALS

Get vintage looks with radial drivability. These are vintage-looking tires with 2 3/8" wide whitewalls that are actually smooth-riding, gas-saving radials! These are the real thing, not a retread nor painted imitation, with polyester and steel belts for safe, aggressive all-season driving and most importantly, 100% Corvette style.

1956-62 DRIP RAILS

Note: 1959 was a split year for this weatherstrip. On the early style, the 2 holes for the push-in retainers were both along the bottom edge of the weatherstrip. On the later style, one hole was moved to a position slightly around the corner of the weather strip, as noted in the illustration.
