LOOP CARPET

Loop Carpet, correctly press-molded. The original 1965-67 Carpet underlayment was a "rubber backed" jute material. Removal of your original carpet may result in damage to the jute portion of the original underlayment. If your rubber backing is damaged, our Original Style underlayment will provide an accurate installation of your 1965-67 Corvette carpet. For economy, you may select a Carpet Insulation Kit (versus Original Style Underlayment) to use for your carpet underlayment. For superior noise and heat reduction, a Heat Barrier Kit can be used in addition to any underlayment selection you make.
